PROFILE

Motivated BTech student in software engineering with a strong foundation in coding, problem-solving, and software development practices. Skilled in writing clean, efficient code and experienced in collaborative projects. Quick to learn new technologies, with a commitment to building high-quality software. Seeking opportunities to apply technical skills and contribute to impactful projects in a software development role Hardworking College Student seeking employment.

EDUCATION

Btech   Sep 2023 - Sep 2027

AMRITA SCHOOL OF COMPUTING, GUNTUR

"Pursuing a Bachelor of Technology (BTech) in Computer Science and Engineering, developing a strong foundation in algorithms, data structures, and software development. Hands-on experience in programming, database management, and system design through academic coursework and projects. Passionate about solving complex problems and applying theoretical knowledge to real-world applications."

INTERMEDIATE   Jun 2021 - Aug 2023

NARAYANA JUNIOR COLLEGE, GUNTUR

GUNTUR, February 11, 2025

harshita Tanvie

ACHIEVEMENTS

- Demonstrated strong problem-solving skills by tackling complex coding challenges and optimizing existing algorithms.
- Participated in collaborative projects that enhanced teamwork and communication skills while applying theoretical concepts in practical scenarios.
- Successfully developed and implemented multiple projects focusing on algorithms and software development
